

IMPLEMENTING OPEN SCIENCE – FROM INTERNATIONAL POLICY TO NATIONAL LEVEL

09:30 Open Science Policies in Europe – development and monitoring of national policies

The opening session highlights the overarching aspects of Open Science and gives examples on implementation guidelines, measures and best practices, in connection with the EU policy for Open Science, as well as the UNESCO Recommendation on Open Science.

Welcome

Karin Grönvall, National Librarian,
National Library of Sweden
Katarina Bjelke, Director General,
Swedish Research Council

Opening address

Maria Nilsson, State Secretary,
Swedish Ministry of Education and Research

Implementation of the UNESCO Open Science recommendation

Hanne Monclair, UNESCO Open Science Steering Committee & Ministry of Education and Research

10:15 Council Conclusions and Scholarly publishing

Panel discussions on the upcoming council conclusions on scholarly publishing which address issues such as challenges in the peer-review system, costs associated with publication, copyright legislation and secondary publishing rights.

Panelists

Michael Arentoft, Head of Unit, Open Science, European Commission
Astrid Söderbergh Widding, President, Stockholm University
Karel Luyben, President, EOSC Association

Moderator

Anna Lundén, Director of Collaboration, National Library of Sweden

PHOTO: ØVIND HOLMSTAD

The National Library is situated at Humlegårdsgatan 26 in Stockholm.

11:00 Break

11:15 Aligning research assessment with Open Science

In this session we will explore the topic of how we ensure research quality as we move into Open Science. What is the latest progress and the views of different stakeholders?

Keynote

Nicolas Fressengeas, Vice President, University of Lorraine (online)

Panelists

Katarina Bjelke, Director General, Swedish Research Council
Dagmar Meyer, Policy Adviser, European Research Council Executive Agency
Max Dumoulin, Vice President Portfolio Innovation, Elsevier

Moderator

Anna Nilsson Vindefjärd, Vice President EuroScience

12:15 Lunch

-->

13:00 EOSC – advancing Open Science to the next level

Listen to presentations and take part in discussions about the current status of the European Open Science Cloud and how different stakeholders can contribute to realise the vision.

Speakers

Michael Arentoft, Head of Unit
Open Science, European Commission
Karel Luyben, President, EOSC Association
Sofie Björling, Director for the
Department of Research Infrastructures,
Swedish Research Council
Astrid Söderbergh Widding,
President, Stockholm University
Jessica Lindvall, Head of Training,
SciLifeLab Training Hub

Panel discussion with the speakers

Moderator

Wilhelm Widmark, Library Director,
Stockholm University, EOSC

14:45 Coffee break

15:15 Citizen Science in policy and practice

Join presentations and discussions on the final report from the European Commission's Mutual Learning Exercise (MLE): "Citizen Science – Initiatives, Policy and Practice", which highlights identified best practices and policies from across Europe.

Citizen science – an EU policy and programme priority

Signe Ratso, Deputy Director-General of DG
Research & Innovation, European Commission
(online)

Presentation of the main MLE findings

Alan Irwin, Chair of MLE Citizen Science,
Copenhagen Business School
Margaret Gold, Citizen Science Lead,
Leiden University

Citizen Science in Austria

Barbara Weitgruber, Director General,
DG V Scientific Research & International
Relations, Federal Ministry of Education,
Science and Research (online)

Citizen Science as a part of the National Strategic Framework for Open Science in Romania

Adrian Curaj, General Director (online)
Ioana Trif, Open Science Policy Expert,
Executive Agency for Higher Education, Research,
Development and Innovation Funding (UEFISCDI)

Moderator

Alan Irwin, Chair of the MLE Citizen Science,
Copenhagen Business School

Q & A session

17:00 End of the first conference day

PHOTO: FREDRIK PERSSON

17:30 Networking mingle hosted by University Alliance Stockholm Trio

Venue

KTH Royal Institute of Technology Library
– Ångdomen, situated at Osquars backe
31 in Stockholm

EMBEDDING OPEN SCIENCE IN SOCIETY – FROM POLICY TO PRACTICE

09:00 Science for Policy making

How can policymakers and researchers use scientific knowledge to increase dialogue and improve policy decisions? Examples and best practices.

Welcome and introduction

Lisa Månsson, Director General,
Swedish Museum of Natural History
Agnieszka Gadzina-Kolodziejska,
Deputy Head of Unit,
European Commission Joint Research Centre
Christoph Humborg, Scientific Director,
Baltic Sea Centre, Stockholm University
Sverker Lundin, CEO, Young Academy of Sweden

Science–Policy Interfaces: From Warnings to Solutions

Mikael Karlsson, Associate Professor,
Climate Change Leadership, Uppsala University

How does the European Commission Joint Research Centre work with science for policy?

Julian Keimer, Policy Analyst,
European Commission Joint Research Centre

Bridging the Gap between Science and Policy – Lessons Learned by the Stockholm University Baltic Sea Centre

Ellen Bruno, Policy Analyst,
Stockholm University Baltic Sea Centre

Opportunities and risks in the Science–Policy interface

Jessica Jewell, Associate Professor,
Chalmers/Young Academy of Sweden

Panelists

Marie-Louise Hänel Sandström,
Member of the Swedish Parliament
Amanda Wood, Researcher, Stockholm
University, Stockholm Resilience Centre
Anders Grönvall, former State Secretary to the
Swedish Minister for Environment

Moderator

Gun Rudquist, Head of Policy,
Stockholm University Baltic Sea Centre

11:15 Science and society – Science communication and engagement as enablers for Open Science

Communicating and engaging science with society are key to implementing Open Science. But how are EU and national policies transferred from policy and implemented in practice? This session will discuss policy measures in the EU and showcase inspiring national projects.

Science Europe statement on Science Communication & Future Policy Platform

Lidía Borrell-Damián,
Secretary General,
Science Europe (film)
Anna Maria Fleetwood,
Senior Adviser,
Swedish Research Council

TruSD – 10 point programme to increase trust in Science and Democracy in Austria

Barbara Schrotter, Policy Advisor,
Austrian Federal Ministry of Education,
Science and Research (online)

Dutch National Center for Science Communication

Alex Verkade,
Head of Communications
and Positioning, Regieorgaan
SIA (online)

Similar inspiring policy initiatives and best practices in other countries!

Discussion and collection of
activities from participants

Moderator

Gustav Bohlin,
Deputy Secretary General,
VA (Public & Science)

-->

12:00 Lunch

13:00 Accessibility to and involvement in science

Museums and science centres are important actors when it comes to engaging citizens in science.

How do museums and science centres create science involvement and engagement – what more can we do?

A showcase of experiences and practices will be shared from natural history museums with centuries of research tradition, as well as from science centre organisations which have evolved over the last 50 years.

Speakers

Peter C. Kjærgaard, Director, National History Museum of Denmark
Carina Halvord, CEO, Universeum Science Centre, Sweden
Sebastian Kvist, Research Director, Swedish Museum of Natural History

How can museums, science centers and science communication organisations work together on European level to create engagement?

There are plenty of initiatives run by individual organisations and sometimes they are run in collaboration with others – bilateral, national or international. In this session, Europe's two largest science outreach and communication networks will share their views on the strengths and challenges of working together.

Speakers

Bruno Maquart, President Ecsite
Cissi Askwall, President EUSEA

Moderator

Christine Sundberg Carendi
CEO Swedish Science Centres

14.40 Open Science – the way forward

Parisa Liljestrand, Minister for Culture, Sweden

Closing address

Karin Grönvall, National Librarian, National Library of Sweden
Lisa Månsson, Director General, Swedish Museum of Natural History

15.00 End of conference

15:15 Optional – Guided tour of the Swedish Museum of Natural History

PHOTO: STAFFAN WAERNDT

The Swedish Museum of Natural History is situated at Frescativägen 40.
